

Release Summary

I/CAD 9.4 suite with Intergraph OnCall®, Mobile Clients & Interfaces

Product overview

Intergraph® Computer-Aided Dispatch (I/CAD) from Hexagon's Safety & Infrastructure division is a suite of industry-leading incident management software that features complete, integrated capabilities for call-handling and dispatching, intelligent mapping, field communications, data reporting and analysis, and application integration. I/CAD enhances the quality and availability of critical information, providing a common operating picture for intelligent response.

Version overview

The Q4 2019 release adds Oracle 19ci support.

See the full release notes and issues resolved document on the [support site](#) for additional details.
