

Intergraph G/Technology 10.03.0300 Issues Resolved

10.03.0300.05003

- If two CRs numbers appear in the CR # column, the first CR listed is the primary occurrence of the issue. The second CR listed is a multiple occurrence CR filed specifically for the current software version.
- A database upgrade is required for this release.

	CR #	Product	Summary	Description / How to Reproduce
1.	1-1LAB7E7	G/Technology Administrator	Simple Attribute queries restricted in Networks	Simple Attribute Queries that have only one value to be prompted but have multiple substitutions of the one value within the SQL do not work. Resolution: Added logic to support Multiple substitutions
2.	1-1LUZS9J	G/Technology Designer	Quick Search and Area Manager not working using IGTHelper	Commands are not getting loaded before the Application's DocumentOpened() event gets fired. Resolution: Changed the functionality to load the tracker commands to load before the DocumentOpened event gets fired.
